

Table 1: Feature name and abbreviation reference with descriptions.

Category	Feature Name	Abbr.	Description
Specification	Requirement Statement	Req_Stat	Problem statement or task definition
	Programming Language	Program_Lang	Programming language for implementation
	Language	Language	Natural language for documentation
Analysis	Requirement Pool	Req_Pool	Prioritized list of all requirements
	Requirement Analysis	Req_Anal	Detailed examination of project requirements
	Competitive Analysis	Compet_Anal	Analysis of similar questions
	Logic Analysis	Logic_Anal	Breakdown of requirement logic
Design	Implementation approach	Implement	Technical strategy and algorithm design
	Data structures	Data_Struct	Core data structures and its definitions
Dependency	Required packages	Req_Pack	Standard library dependencies
	File list	File_List	List of output files
	Shared Knowledge	Share_Know	Common information across modules
